Grades

Ten percent (100 points) of your grade in Dolenc's class comes from this discussion section. I grade you based on

1. attendance and participation in the discussion (50 points total); and
2. short, random quizzes (50 points total).

Our discussion section meets about 15 times this term. There will be more or less 10 quizzes, so each quiz is worth about 5 points. Every time we take a quiz, I also grade you that day on participation and attendance (the other 5 points).
